Step 2

Step 3

Step 4

| Step 5 | HRDC Assistant Coordinator will <b>verify</b> the plants selected in the field based on the summary / file sent by the participant. We will notify you on the final list and quantity of the seeds to be applied in the import permit.   |
|--------|--|
|        | Seeds from the selected plants will be harvested by HRDC staff and quarantined by IRRI's Seed Health Unit. They will be sent to participants following IRRI seed export protocols.   |
| Step 6 | Participant/Member signs the <b>Material Transfer Agreement</b> and applies for the <b>Import Permit</b> ( <i>if applicable</i> ). Send the scan copy of the IP via email and the original IP ( <i>with English Translation if applicable</i> ) via courier to the HRDC Assistant Coordinator. |
|        | IMPORTANT NOTE: We will suspend the transferring/shipment of materials if we have not received the membership payment. So please check if payment has been made prior to the HRDC Annual Meeting. Deadline of payment is due April 1.  |
|        | Deadline in receiving <b>import permit</b> in IRRI: <b>September 30, 2013</b><br>All seeds will be destroyed after Sept 30.  |
| Step 7 | Prior to release of materials, seeds will undergo Routine Seed Health Testing. Materials are expected to be dispatched in IRRI after 1 month upon receipt of the original import permit and  |

## **Important Reminders:**

completion of required documents.

- Participants are NOT allowed to harvest any seeds. Previously, we found out that some members
  privately harvested seeds or cut the whole plants. This action is against all HRDC Members; other
  members could not make the selection in that particular plant. Please observe strict compliance. Violators
  will be apprehended.
- Participants should be cautious NOT to stomp on other plants or destroy other plants whether selected or not. Other members and IRRI Breeders are making selections too!
